Regulatory and business update

The Group operates two funded defined benefit pension schemes: the AA UK Pension Scheme (AAUK) and the AA Ireland Pension Scheme (AAI). The AAUK scheme has closed final salary and Career Average Revalued Earnings (CARE) sections. The CARE section provided for benefits to accrue on an average salary basis. The AAI scheme is closed to new entrants and future accrual of benefits.

Following the triennial valuation as at 31 March 2016 the Group agreed a deficit of £366 million with the pension trustees. The Group has committed to paying an additional £8 million per annum from July 2017 to March 2019, £11 million per annum from April 2019 to March 2021 uplifted in line with RPI from 1 April 2020 and £13 million per annum from April 2021 to June 2026 uplifted in line with RPI from 1 April 2022 annually. Following the November 2013 triennial valuation the Group implemented an asset backed funding scheme which remains in place. The asset backed funding scheme provides a long-term deficit reduction plan where the Group makes an annual deficit reduction contribution of £13 million increasing annually with inflation, until November 2038, secured on the Group's brands.

There have been no other new significant regulatory and business developments (including any highly publicised incidents) other than as described in the Interim Financial Statements.

There have been no other significant announcements/publications by the government relating to Permitted Business.
