

FINAL TERMS

Final Terms dated 13 July 2018

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Class A Notes has led to the conclusion that: (i) the target market for the Class A Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); and (ii) all channels for distribution of the Class A Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Class A Notes (a “distributor”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Class A Notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Class A Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the “Insurance Mediation Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the Class A Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Class A Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Intended to be held in a manner which would allow
Eurosystem eligibility:

No. Whilst the designation is specified as “no” at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Class A Notes are capable of meeting them, the Class A Notes may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Class A Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.
